

Mitzvos Spreadsheet

This is a chart for you to fill in so as to help you remember the fundamentals of each Mitzvah, and to make it easier to study. The information for this chart is in the Mitzvah boxes at the beginning of every unit.

What's in the chart?

The chart has seven columns going from left-to-right.

1. The first column (starting from the left) is already filled in with a list of all the **Units** in the book.
2. The second column (the one that says 'מצוה' on top) has empty boxes for you to fill in the **Hebrew name** of each Mitzvah.
3. The third column is already filled in with the **translations** for all the Mitzvos.
4. The fourth column has empty boxes for you to fill in to **who** the Mitzvah applies.
5. The fifth column has empty boxes for you to fill in **where** the Mitzvah applies.
6. The sixth column has empty boxes for you to fill in **when** the Mitzvah applies.
7. The last column has empty boxes for you to fill in the **punishment** given for violating the Mitzvah (write 'no punishment' if there is no punishment for violating the mitzvah). Tip: For a מצות עשה, just leave the punishment box empty (unless there is a punishment for that Mitzvah).

Some boxes are already filled in

Besides the Unit numbers/names and the translations of the Mitzvah names, you will notice that some boxes are already filled in and written in **blue**, and in some books there are Mitzvah names also filled in.

- The words in **blue** are things that were changed or corrected from what it says in the book.
- Any Mitzvah names that were left in the chart are names that are not in the book, or have corrections to the names in the book.

Should I follow the book or the chart?

In the case of a difference between the book and the chart, you should follow what it says in the chart. The chart is updated with information that the book doesn't have, so when studying, make sure you know what it says in the chart.

Tip

Try to write the names of מצוות עשה in green, מצוות לא תעשה in red, and מצוות דרבנן in purple, this will help you when you're studying.
